

September 1 1886:

The kineograph was created and is known as the first step forward for cartoon animation.

The Simpsons changes the cartoon world when it first came out. It was a Cartoon for adults because of the topics they have and the language they use. It also ushered in a lot of other people to copy them and create their own show.

December 17 1989

August 13 1997

South Park brought a new type of animation to cartoons, their first episodes were made by still pictured cardboard paper characters. It also created the more uncensored type of cartoons.

Family guy was one of the last turning points of cartoons. Family Guy uses cut aways to implement their jokes. This is also showed in shows like Cleveland show and American dad.
